The Grid shown on this map is a localised projection of the British National Grid. The 100m grid reference of the bottom left corner being SP 264 784 and that of the top right corner being SP 271 790.

This map is aligned to Grid North. True North is approximately 0.3 degrees West of Grid North. Magnetic north is 3.5 degrees West of Grid North for Oct 03, decreasing by approx 0.2 degrees annually.

Map based on several surveys of rough close carried out between 1950 and 2003. Principal details derived from the survey of the Arden Venture Scout Unit -1968. Additional detail derived from a variety of uncredited maps combined with GPS observations made during august 2003.
